

Caroline Edwards

Product Designer | Simplifying digital journeys | Healthcare, education & public services

Southampton, UK | 07999738212 | sayhello@mostlycaroline.com | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

I design digital products that turn complex problems into simple, accessible experiences. Across healthcare, education, publishing and the public sector, I combine user research, interaction design and accessibility to reduce friction and build user confidence.

Good design starts with understanding people, not just their data - and that's the outcome I aim for every project.

CORE SKILLS

User Research & Synthesis	Accessibility (WCAG 2.1 AA & 2.2)	Figma
Usability Testing	Inclusive & SEND-Informed Design	Stakeholder Collaboration
Wireframing & Prototyping	Learning Experience Design (LXD)	Agile Delivery
Information Architecture	Interaction Design	Design Systems
User Flows & Journey Mapping	Behaviour Change Design	Product Strategy & Optimisation

RECENT PROJECTS

Harley Hospital | Simplified patient appointment booking.

HabitHero | Took a healthcare product from research to validated prototype.

Arbor | Improved the parent-purchasing journey.

EXPERIENCE

Product Designer

King's College London. February 2026 - Present

- Led end-to-end product design from discovery through to interactive prototypes, combining user research, product strategy and interface design to solve complex user problems.
- Planned and conducted user interviews, usability testing, heuristic evaluations and stakeholder workshops, turning research insights into measurable design improvements.
- Designed intuitive user journeys, information architecture and accessible interfaces, embedding WCAG principles throughout the design process.
- Built scalable design systems, reusable components and interaction patterns in Figma, improving consistency and supporting efficient developer handover.
- Balanced user needs, business objectives and technical constraints to prioritise solutions with the greatest product impact.
- Produced commercially focused case studies demonstrating product strategy, interaction design, accessibility, prototyping and evidence-based decision making.

SEND Experience Support (Applied Inclusive Design)

Hampshire County Council. July 2021 - Present

- Generated first-hand EdTech insight by working daily with children with autism, SEND, and complex behavioural needs, observing where digital learning tools succeed and fail in real classroom conditions.
- Translated complex individual needs into structured, accessible support plans in collaboration with teachers, SENCOs, therapists, and families, delivering consistent outcomes across a multidisciplinary team.
- Mentored and coached children and adults through adaptive, user-centred approaches, applying the same inclusive design principles that underpin accessible product design.

Service Designer & Operations Lead

Everybody Pilates. March 2016 – August 2021

- Drove 150% growth in membership sales and over £100k in annual revenue by redesigning end-to-end service experiences, informed by ongoing member research and iterative improvement.
- Designed and standardised service delivery across four locations, translating staff ideation sessions into operational frameworks, training materials, and scalable processes.
- Mentored and developed a direct team of six, plus staff across franchise locations, building capability and consistency across the organisation.

Lead Interaction Designer

Abacus e-Media. August 2006 – May 2016

Progressed from Junior to Lead Interaction Designer over nearly a decade at an award-winning digital agency, designing products used by millions across education, publishing and the public sector.

- Led UX, interaction and visual design from discovery through to delivery across websites, SaaS products and digital services.
- Simplified complex user journeys through research, information architecture, interaction design and accessible interfaces.
- Built scalable design systems and reusable UI patterns across multiple client accounts.
- Collaborated closely with developers, stakeholders and multidisciplinary teams to deliver commercially successful digital products.
- Mentored junior designers while helping shape the studio's UX, accessibility and design standards.

Recognition: Contributed to seven industry award-winning projects, including Government Website of the Year and multiple PPA and AOP award-winners.

Interactive Learning Designer

BBC. July 2005 – September 2005

Contributed to **BBC Jam**, designing interactive numeracy content in collaboration with educators and curriculum specialists. Translated curriculum objectives into engaging, accessible digital learning experiences for young learners aged 5-7.

Interactive Designer

Big Pink. May 2005 – July 2005

Designed digital experiences for leading healthcare organisations, including GlaxoSmithKline (GSK) and Pfizer, translating complex medical information into intuitive, accessible websites and interactive campaigns. Collaborated with creative, technical and client teams to deliver user-centred solutions within highly regulated healthcare environments.

KEY ACHIEVEMENTS

E-Commerce Innovation of the Year (2013) PPA Customer Direct Awards - The Grocer, William Reed Business Media | Lead UX/UI Designer

Digital Innovation of the Year (2013) PPA Awards TES Connect, TSL Education | UX/UI Designer

Digital Data Product of the Year (2012) PPA Awards - TES Connect, TSL Education | UX/UI Designer

Government Website of the Year (2011) - Lincolnshire County Council | Lead UX/UI Designer

IT Project Innovation Award (2011) - Lincs to the Past | Lead Designer

IT Project Innovation Award (2009) - C4YP | Lead Designer

Business Website of the Year AOP Awards (2009) TES Connect, TSL Education | UX/UI Designer

EDUCATION

Interactive Media Production BA (Hons) | Bournemouth University 2003 - 2006

Computer Animation & Visualisation Foundation | Bournemouth University 2002 - 2003

Graphic Design BTEC Diploma | Reading College 2001 - 2002
