

Caroline Edwards

UX/UI Designer | EdTech Specialist | Accessibility Advocate

Southampton, UK | 07999738212 | sayhello@mostlycaroline.com | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Most EdTech designers research users like me. I work alongside them every day. Working directly alongside children with SEND, autism, and complex behavioural needs gives me firsthand knowledge that shapes how I approach inclusive design, behaviour change, and the gaps in learning products that data alone will not surface.

15 years of UX/UI design spans B2B, B2C, and SaaS products across education, media, and public sector. I cover the full lifecycle, from acquisition through to iteration, and bring design system thinking, accessibility expertise, and a track record of award-winning work to every project.

CORE SKILLS

User Research & Synthesis	Accessibility & WCAG 2.1 AA	Figma
Usability Testing	Inclusive & SEND-Informed Design	Stakeholder Collaboration
Wireframing & Prototyping	Learning Experience Design (LXD)	Agile Delivery
Information Architecture	Interaction Design	Design Systems
User Flows & Journey Mapping	Behaviour Change Design	Acquisition & Conversion

RECENT PROJECTS

HabitHero | End-to-end behaviour change product for healthcare client PrimeCare, covering user research, journey mapping, design system, wireframes, and two rounds of usability testing.

EXPERIENCE

UX/UI Product Designer - King's College London

February 2026 - Present

Industry-partnered programme. PrimeCare is a named commercial client.

- Led end-to-end design of HabitHero, a behaviour change product for healthcare client PrimeCare, from discovery through to a validated high-fidelity Figma prototype covering onboarding, tracking, and progress visualisation.
- Delivered WCAG 2.1 AA-compliant flows across three rounds of usability testing by embedding inclusive design from research through to final prototype.
- Built a structured design system covering components, interaction states, and spacing tokens, maintaining consistency across all screens from the outset.

**SEND Experience Support (Applied Inclusive Design) | Hampshire
County Council**

July 2021 - Present

- Generated first-hand EdTech insight by working daily with children with autism, SEND, and complex behavioural needs, observing where digital learning tools succeed and fail in real classroom conditions.
- Translated complex individual needs into structured, accessible support plans in collaboration with teachers, SENCOs, therapists, and families, delivering consistent outcomes across a multidisciplinary team.
- Mentored and coached children and adults through adaptive, user-centred approaches, applying the same inclusive design principles that underpin accessible product design.

Service Designer & Operations Lead | Everybody Pilates

March 2016 – August 2021

- Drove 150% growth in membership sales and over £100k in annual revenue by redesigning end-to-end service experiences, informed by ongoing member research and iterative improvement.
- Designed and standardised service delivery across four locations, translating staff ideation sessions into operational frameworks, training materials, and scalable processes.
- Mentored and developed a direct team of six, plus staff across franchise locations, building capability and consistency across the organisation.

Lead Interaction Designer | Abacus e-Media

August 2006 – May 2016

- Won seven industry awards across education, media, and public sector clients, including four for TES (Times Educational Supplement), leading UX and visual design from discovery through to delivery.
- Established a design system approach across concurrent client projects, building interaction patterns, component libraries, and design standards that improved consistency and developer handoff quality.
- Mentored junior designers into confident practitioners, leading creative direction and advocating for user-centred methods and accessibility standards throughout the studio.
- Delivered acquisition and engagement outcomes for subscription and editorial products at TES, Macmillan, and Condé Nast UK by designing intuitive onboarding flows, information architecture, and conversion-focused interfaces across web and mobile.
- Selected clients: TES (Times Educational Supplement) · Macmillan Publishing · OZY Media · Condé Nast UK · Bauer · Centaur Media · UBM · William Reed · Ocean Media · Christie's · Lincolnshire County Council · Cambridgeshire County Council · Dorset County Council

Flash Designer | BBC

July 2005 – September 2005

- Contributed to Key Stage 1 numeracy content for BBC JAM - a digital curriculum initiative - working with educators and curriculum specialists to translate learning objectives into engaging, accessible interactive content for young learners.

Interactive Designer | Big Pink

May 2005 – July 2005

- Produced websites, interactive experiences, and digital materials for leading healthcare brands, including GlaxoSmithKline and Pfizer.
